Recommended Vendors List

Facility Vendors

Service	Vendor Name [link to website]	Location	Notes/Feedback
Locksmith	Parker Security & Locksmith Contact:	Fremont, CA. Serving the greater East Bay	They're great! Constantly doing their best to make sure we're getting the best price for our needs. They have a walk-in store in Fremont and will do rekeyings on the spot. As someone who "likes to do it themselves," they have been great with supplies and parts for projects, or helping me to install select components on doors while I do low-voltage/wiring.

IT and System Administration Vendors

Service	Vendor Name [link to website]	Location	Notes/Feedback

Printers	Cortron Systems Inc. Contact: office@cortronsystems.com Contact: Devon@cortronsystems.com	San Jose, CA serves the greater Bay Area	We lease 15 Printers, including a very high-end Plotter for a 50+ inch prints. They offer a service that runs on Windows or Linux, though they recommend Windows, which monitors and reports the status of your printers back to them. I have 15 years of career in the IT space, and a Printer can be a real pain in the ass, especially at scale. Cortron is the best I've ever had the opportunity to work with. They're professional, knowledgeable about their technology, and excel in service and support. I've worked with them without issues on various complicated projects. We've upgraded printers in the office, and they have cloned configurations from the old to the new printer without issues, so our end users don't see any change in their process or have to "re-add" devices."
